## A1 study companion

12 key scenes • German + English + Sinhala

## From your first greeting to your next goal

A visual coursebook for Piu: short scene summaries, useful German, vocabulary, sentence analysis and guided practice.

Selected scenes across the A1 film. This is a study companion, not a complete transcript or a complete A1 examination course.

Independent learning material. Film and screenshots: © Deutsche Welle. Teaching explanations, practice dialogues and exercises are newly written.

# How to use this book

## One lesson, about 20-30 minutes

1. Open the linked DW lesson. Watch once to understand the situation.
2. Look at the screenshot and read the short story summary.
3. Listen again. Find the short quoted line in the clip.
4. Read the Sinhala explanation and the grammar breakdown.
5. Say the original practice models aloud, then change the details.
6. Complete the three exercises and check the answer key.
7. Do the speaking task without looking at the model sentences.

## About the screenshots and timestamps

Each image is an actual frame captured from the corresponding official DW lesson video. Most are at 00:30; the doctor's-visit frame is at 00:55. These lesson clips show the same story scenes as the film you shared. The timestamps refer to the individual clips, not to the 1-hour-44-minute YouTube compilation.

The YouTube player blocked playback in this browser. We therefore used DW's independently accessible official lesson videos. We did not invent full-film timestamps.

## What is from the film?

A line marked "From the scene" is a short verified quotation from DW's manuscript. "Practice models" are new examples for learning; they are not presented as film dialogue. The image may show a different moment from the quoted line.

## Case labels are learning tools

NOM = Nominativ, usually the subject. AKK = Akkusativ, often a direct object. DAT = Dativ, required by certain verbs and prepositions. Learn the complete phrase as well as its label.

## A simple pace

Study one unit per day, or three units per week. After every three units, repeat the speaking tasks from memory. Revisit vocabulary the next day, after three days and after one week.

## Use it at your level

At A1, prioritise the model phrases and the speaking task. Some real film lines contain grammar beyond the lesson's core target. Those features are identified briefly rather than treated as things you must master immediately.

# Grammar in the scene

## Wo? versus Wohin?

Ich bin im Laden: location, in + Dativ. Ich gehe in den Laden: destination into the shop, in + Akkusativ. The distinction is location versus destination, not simply no movement versus movement.

## zu + Dativ

Ich gehe zu dem Bahnhof = zum Bahnhof. zu takes Dativ even when the sentence describes a destination. zur = zu der.

## Formal instructions

Gehen Sie geradeaus. Biegen Sie rechts ab. The finite verb comes first in a formal imperative; Sie follows. ab is a separable prefix.

# Grammar in the scene

## Singular and plural verb

Das Brot kostet drei Euro. Die Äpfel kosten drei Euro. The verb agrees with the item or items that cost money.

## Buying something: Akkusativ

Ich nehme einen Apfel. Ich nehme ein Brot. The article changes visibly for masculine nouns, but not for neuter ein.

## Numbers and units

Write German decimals with a comma: 3,20 €. Say drei Euro zwanzig. Common amount phrases include ein Kilo Äpfel and zwei Stück Kuchen.

## From the scene

### “Grün, das ist meine Lieblingsfarbe.”

Green, that is my favourite colour.

Der Pullover ist grün කියනකොට grün වචනය noun එකට කලින් නැති නිසා adjective ending එකක් නැහැ. Ich habe keinen Pullover කියනකොට Pullover පුරුෂ ලිංග Akkusativ නිසා keinen. mein, meine, meinen වගේ වෙනස්කම් article එක සහ case එක එක්ක බලන්න.

## Words to keep

| blau                      | blue            |

# Grammar in the scene

## Adjective after sein

Das Hemd ist blau. Die Mütze ist grün. A predicate adjective after sein has no adjective ending. Adjectives before nouns work differently; learn that later.

## kein in Akkusativ

Ich habe keinen Pullover (masculine), kein Hemd (neuter), keine Mütze (feminine). kein negates a noun with an indefinite article or no article.

## mein in Akkusativ

Ich suche meinen Pullover / mein Hemd / meine Mütze. Compare the subject: Mein Pullover ist hier. The masculine ending shows the case clearly.

## Sentence breakdown

| Part            | Job / case                   | Meaning   |

## From the scene

### "Haben Sie einen Termin?"

Do you have an appointment?

Haben Sie ...? ඔව් හෝ නැහැ උත්තරයක් ලැබෙන ප්‍රශ්නයක්. ඒ නිසා finite verb එක මුලට එනවා. Termin පුරුෂ ලිංග noun එකක්. haben එක්ක object එක Akkusativ නිසා einen Termin. Mir tut der Fuß weh කියනකොට mir Dativ, der Fuß subject එක.

## Words to keep

|------------------------------------|----------------|
| der Arzt, Ärzte / die Ärztin, -nen | doctor         |

| wehtun                             | hurt           |

# Grammar in the scene

## Yes/no questions: verb first

Haben | Sie | einen Termin? Compare the statement: Sie | haben | einen Termin. The object is Akkusativ in both.

## wehtun is separable

Mein Fuß tut weh. The finite part is tut; weh comes at the end. Meine Füße tun weh uses the plural tun.

## Optional Dativ person

Mir tut der Fuß weh. der Fuß is the subject; mir identifies the person affected in Dativ. A simpler A1 alternative is Mein Fuß tut weh.

## Sentence breakdown

| Part    | Job / case               | Meaning  |
|---------|--------------------------|----------|
| Mir     | affected person / Dativ  | to me    |

At Yara’s bicycle shop, Nico tells Tarek about wanting his own shop. A voice outside interrupts them.

## From the scene

### “Ich hätte gern einen eigenen Laden.”

I would like to have my own shop.

මෙතන hätte gern කියන්නේ යමක් තිබුණොත් කැමතියි කියන ආචාරශීලී වචන කොටසක්. A1 දී මුළු grammar පද්ධතියම ඉගෙනගන්න අවශ්‍ය නැහැ. Ich möchte ... ලෙසත් තමන්ගේ බලාපොරොත්තුව කියන්න පුළුවන්. von එක්ක Dativ යොදනවා.

## Words to keep

| German (article + plural) | English   |
|---------------------------|-----------|
| träumen                   | dream     |
| üben                      | practise  |

| der Traum, Träume         | dream     |
| jeden Tag                 | every day |

# Grammar in the scene

## A wish with möchten

Ich | möchte | Deutsch | lernen. The finite verb is second; the infinitive is last. This is an accessible way to express a goal.

## von + Dativ

Ich träume von einem Laden. von takes Dativ; masculine ein becomes einem. Also: von einer Reise, with a feminine noun.

## Recognise a useful chunk

ich hätte gern expresses a wish politely. Treat it as a phrase at A1. In einen eigenen Laden, einen marks masculine Akkusativ; detailed adjective endings can be studied later.

## Sentence breakdown

| Part            | Job / case                       | Meaning   |
|-----------------|----------------------------------|-----------|
| Ich             | subject / Nominativ              | I         |
| träume          | finite verb / position 2         | dream     |
| von einem Laden | prepositional complement / Dativ | of a shop |

## Practice models - newly written

# A1 grammar at a glance

## Articles and cases

| Case | Masculine   | Neuter      | Feminine    | Plural |
|------|-------------|-------------|-------------|--------|
| NOM  | der / ein   | das / ein   | die / eine  | die    |
| AKK  | den / einen | das / ein   | die / eine  | die    |
| DAT  | dem / einem | dem / einem | der / einer | den    |

Dativ plural: often add -n to the noun too, if the plural does not already end in -n or -s: mit den Freunden; mit den Autos. There is no plural indefinite article.

## Personal pronouns

| Meaning                 | NOM | AKK  | DAT   |
|-------------------------|-----|------|-------|
| I / me                  | ich | mich | mir   |
| you (informal singular) | du  | dich | dir   |
| he / him                | er  | ihn  | ihm   |
| she / her               | sie | sie  | ihr   |
| we / us                 | wir | uns  | uns   |
| you (formal)            | Sie | Sie  | Ihnen |

## Three word-order patterns

**Statement:** Heute | lerne | ich | Deutsch.

**W-question:** Wo | wohnst | du?

**Yes/no question:** Lernst | du | Deutsch?

A modal makes a bracket: Ich | möchte | heute Deutsch | lernen. A separable verb splits: Ich | rufe | dich | an.

## Useful Dativ prepositions

aus, bei, mit, nach, von, zu. Examples: aus Sri Lanka; beim Arzt; mit dem Bus; nach Deutschland; von einem Laden; zum Bahnhof.

## Editorial notes

Prepared 4 October 2026. English and Sinhala teaching notes, grammar explanations, original practice models, exercises and answer keys were created for this companion. The short quotations are attributed to DW. This is an independent personal study resource and is not an official DW publication.

## Scope

The selected lessons build useful A1 skills across the film. They do not cover every scene, every A1 grammar point, or the full Goethe/telc syllabus. Use DW's complete course for additional listening, pronunciation, vocabulary and exercises.
